Version 9.1.151.2 (Support Release - 19 March 2025)

Performance Management

Evaluation Summary - Min and Max scores do not reflect correctly (#129365)

Problem

- The overall minimum and maximum ratings displayed on the Evaluation Summary showed the LEAST AND MOST used ratings instead of the highest and lowest ratings.

Solution

- Changed the overall minimum and maximum ratings to be the minimum and maximum ratings selected across all KPIs that were rated.

Organisational Unit

When the Org name is too long the (people, Vacancy, Inactive) does not appear (#129186)

Problem

Learning Management

Saving Attendance Register and Default Recipient Check on Email Notification (#129038)

Problem

- The client requested to save attendance when the notification
- The client requested that the parent checkbox be a default recipient when sending absent notifications

Solution

- Modified `CreateAttendanceNotificationModal` to call `saveAttendanceRegister` before creating notifications.
- Changed `includeParent` state in `AttendanceNotificationModal` to `true` by default

Show period dates on the mark sheet (#123699)

Problem

- The dates are not showing on the mark sheet

Solution

- Add the dates to display on the mark sheet

Data Warehouse

Added additional data (#120152)

Problem

- LearningManagement data needed to be added for WFA School reports

Solution

- Added Datasource fields lmStudentSubjects and lmTermResults to the V9 DWH with the required fields
