

Assessment settings

Path: Modules | e-Learning | Learning Management | Assessment Builder | Assessment List | Assessment Detail

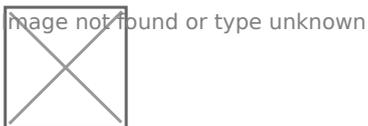

Assessments can either be imported with the correct settings or the settings may be updated after the assessment has been imported.

Existing assessment can also be updated to display on the mobile device with the required additional settings.

On the Assessment Detail page scroll down to the Mobile App Settings, a setting is available that will allow the assessment to be displayed on a mobile device:

When ticking the checkbox, the mobile app setting options are displayed:

Select the required settings applicable to your assessment requirements. Save the selected settings.

The selected fields above will be mandatory fields, the assessment cannot be finalised unless all fields have been completed.

Diminishing questions assessments are not catered for on the mobile assessment application.

Revision #1
