Give Assessor / Moderator access to all assessments
Path: *System Administration | Database | Assessors / Moderators*

If an Assessor or Moderator should have access to all assessments, and not only assessments that the assessor has been linked to, a setting is available to give the user access to all the assessments that has been marked as "visible on mobile app".

The setting will allow the assessor/moderator access to all published assessments on the system that has been marked as "visible on mobile app".

*Tick the **"Allow view/selecting of other assessments on the mobile app**" tick box to give the assessor access to all assessments.*

Save any changes made.
