

Version 9.1.100 (15 July 2024)

Tenant Management

Tenant users cannot update their ID Numbers (TP#112761)

- When creating a new Tenant / Create from Blank or Create from R1
 - Do not copy the MFA settings
 - Always use *Sent OTP via Email* option
 - When copying from any other Ruleset (excl R1)
 - Copy the MFA settings as configured on the copy from ruleset
-

Ruleset Management

Code colours not updating (TP#116801)

Problem

- When saving a theme the changes were not reflected and also gave an error.

Solution

- Fixed the login page heading and description referencing the incorrect model property.
-

Performance Management

Values & Behaviours section weights stay red after entering them manually (TP#113304)

Problem

- React weight validation is failing due to Action Plan items also being evaluated.

Solution

- Exclude Action Plan from the weight validation
