Version 9.1.119 (23 September 2024)

Job Profiler

Printing job profile displays "Details Required" (#120415)

Problem

- "Details Required" displays on each page of the Job Profile print

Solution

- Replace the "Details Required" with the Job Title

Performance Management

PM contracts without PDP's (#119221)

Problem

- Functionality does not allow a user to submit an agreement if there are no items linked to a section

Solution

- Added functionality to allow a user to submit agreements with no items in a section when the section weight is 0%. Excl Primary Goals section.

Identity and Authorisations

Unable to log into newly created ruleset (#120777)

Problem

- Cannot log into a newly created Ruleset

Solution

- Ensure the user is created during the Ruleset creation process

HR Processes

Approver seeing item to approve on Dashboard even though they are not the next approver (#120552)

Problem

- The user, who is the 3rd approver, is seeing an item to approve on their dashboard. Still, when navigating to the Awaiting Your Approval page, the item is not shown yet, since the previous approver (approver 2) has yet to approve the request.

Solution

- Ensure the approval items are only shown when the person needs to approve a request.

Ruleset Setup

Unable to deselect English (United Kingdom) on the dropdown (#120576)

Problem

- Cannot deselect English (United Kingdom) from the Available Languages dropdown

Solution

- Only the default language selected will be disabled in the available languages dropdown.
