

# Version 9.1.139 (14 January 2025)

## Performance Management

### Rate Button not displaying (#125563)

#### Problem

- Rate button not shown to either party when both have submitted but one or the other has rated but not yet submitted ratings

#### Solution

- Fix contract state calculation to correctly determine when ratings are in progress when Objectives are completed and when ratings are partially done.

### Dashboard screen (#125269)

#### Problem

- The contract details do not show when the review year if the current date is not within the period.
- Error translation not shown correctly

#### Solution

- Remove the filter and add ordering on the review year start
  - Correct translation key
- 

## People Management

### Employees Org Structure not syncing correctly from V9 to V8 (#125562)

#### Problem

- Duplicate positions were created with the same position code when doing a bulk job structure import

## **Solution**

- Corrected the external position ID check to ensure the existing position created by the employee import is mapped to the V9 position

## People Management: Go to another does not work (#125569)

### **Problem**

- When the summary tab is active on the people management edit, then go-to another does not work

### **Solution**

- Change the selector to fall back to the default summary tab when no subtab is found that is active
