Version 9.1.153 (7 April 2025)

Imports

ADMIN Register (#129238)

Problem

- The All People group is synced with an empty name to V8 and created as a subgroup with no name

Solution

- Corrected the function that calculated the names of the people group

Learning Management

Teacher not able to View Marksheet and Attendance (#129069)

Problem

- The pathway groups linked to a subject can be used on another subject.
- The marks page breaks due to ambiguous start date

Solution

- Add usage to query and gRPC to filter on the subject model
- Correct query table aliases
- The stardate validation is only at the domain level and not on the front end
- Could not replicate the editing of the name issue
