

Version 9.1.170 (30 June 2025)

Data Warehouse

Add settings to PackageSettings to disable modules (#133513)

Problem

- Other clients do not use all the modules within the system, which will cause the DWH to fail

Solution

- Added extra settings within PackageSettings to enable or disable Modules to be run within the DWH

Learning Management

LMS Portal: Marksheet: Save does not work when entering and Removing Input in an Empty Row (#132306)

Problem

- When adding a value in a cell where there is no user, the marksheet can not be saved, even after removing the value

Solution

- Add new validation to ensure that the row has a user before taking any value to save

Only show First Name in comments (#133519)

Problem

- The full name displays instead of only name

Solution

- Change the full name on the marksheet to only display the name
