

# Version 9.1.170 (30 June 2025)

## Data Warehouse

Add settings to PackageSettings to disable modules (#133513)

### Problem

- Other clients do not use all the modules within the system, which will cause the DWH to fail

### Solution

- Added extra settings within PackageSettings to enable or disable Modules to be run within the DWH
- 

## Learning Management

LMS Portal: Marksheet: Save does not work when entering and Removing Input in an Empty Row (#132306)

### Problem

- When adding a value in a cell where there is no user, the marksheet can not be saved, even after removing the value

### Solution

- Add new validation to ensure that the row has a user before taking any value to save

Only show First Name in comments (#133519)

### Problem

- The full name displays instead of only name

### Solution

- Change the full name on the marksheet to only display the name
