

Version 9.1.170.1 (Support Release - 2 July 2025)

Performance Management

Moderated agreement not shown as moderated on dashboard (#132770)

Problem

- When moderation has been sent for quality assurance, no in-progress indication is shown on the dashboard

Solution

- Add a new check that, when sent to Quality Assurance, shows Moderation In Progress

Data Warehouse

Add settings to PackageSettings to disable modules (#133513)

Problem

- V8 and V9 require their own FullRefresh column within PackageSettings

Solution

- Added new fields V8FullRefresh and V9FullRefresh within PackageSettings

Imports

Organisational Structure Not Reflecting in Target Audience (#133417)

Problem

- The reference to the import API was incorrectly pointing to Rapax, leading the V8 additional services imports not to report as completed.

Solution

- Corrected the Import api proto reference. Already corrected on Master.

Revision #2
