Version 9.1.174.2 (Support Release - 24 July 2025)

Learning Management

Attendance History Date-Pickers (#134520)

Problem

- The calendar range picker shows incorrectly (without styling) on the attendance history

Solution

- Import the Syncfusion styles correctly to ensure the calendar range picker control renders correctly

---

People Management

Avatars and Profile Images settings (#134522)

Problem

- The Image Resources settings handling the display/upload of Avatar images were also affecting the profile image selection and upload.

Solution

- Removed the if check determining the display of the Profile Picture selection and upload, as this must ALWAYS be visible and not be affected by the Avatar settings.
