

Version 9.1.174.2 (Support Release - 24 July 2025)

Learning Management

Attendance History Date-Pickers (#134520)

Problem

- The calendar range picker shows incorrectly (without styling) on the attendance history

Solution

- Import the Syncfusion styles correctly to ensure the calendar range picker control renders correctly

People Management

Avatars and Profile Images settings (#134522)

Problem

- The Image Resources settings handling the display/upload of Avatar images were also affecting the profile image selection and upload.

Solution

- Removed the if check determining the display of the Profile Picture selection and upload, as this must ALWAYS be visible and not be affected by the Avatar settings.

Tenant Management

System Help Page cannot save (#134332)

Problem

- Users can access the edit page for system feedback on other Rulesets

Solution

- Prevent seeing the edit button if not on Ruleset 1
