Version 9.1.190.3 (Support Release - 21 October 2025)

Imports

Missing Employee and Leave Approval Issue (#138345)

Problem

- Payspace pull fails when users without reporting lines exist for the users with the same username being pulled from Payspace

Solution

- Updated manager data selection logic to safely handle null
- ReportingLines and ManagerUsername values, ensuring exported manager lists are never null and usernames default to empty strings if missing.

Notifications

PM Send email notification to employee when contract was moderated (#137237)

Problem

- New development request to send a notification when the user's performance contract has been moderated.

Solution

- Added new template and event codes for Moderation Finalised. Call notification event when moderation is approved.

Performance Management

The Year dropdown is not populating (#138651)

Problem

- The retrieval of active review years for Moderation takes too long

Solution

- Add missing filters for PM Materialised People Group users
