

Version 9.1.254 (7 September 2026)

Organisational Structure

Org Structure "&" symbol not showing correctly (#155333)

Problem

- The Org name does not correctly render the "&" symbol.

Solution

- Place the name inside HTML.Raw
-

Job Management

Added a new pre-import step to set the PM manager to the same as it is currently (#154903)

Solution

- Added a new pre-import script to join the current user to get the current PM manager and override that pm username
-

HR Processes Automation (such as Onboarding)

New functionality

- A new HR Process Automation product is available

- New Dashboard Widgets are available for the person assigned to a journey, the Manager and HR Processes Automation Admin
 - A new Dashboard is available to see all tasks that need attention
 - A new role is available to be assigned for HR Processes Automation
 - Templates can be created
 - Different steps as activities can be added
 - Journeys can be assigned to people
 - Where applicable, add more steps
 - Be able to complete the journey
-
