Data Dictionary field ordering & Alias renaming (#76220)

Fixed an issue where the Data Dictionary Field ordering and Alias renaming were not working on subsequent pages

The screenshot shows a 'Data Field Details' dialog box. It contains two text input fields: 'Field Alias' with the value 'Position Title' and 'Display Order' with the value '20'. Below these is a toggle switch for 'Is Selectable', which is currently turned on. At the bottom right of the dialog are two buttons: 'CANCEL' and 'SAVE' (which has a save icon). The dialog is overlaid on a background that shows a table with columns 'NextJobCode' and 'varchar'.

Performance Management

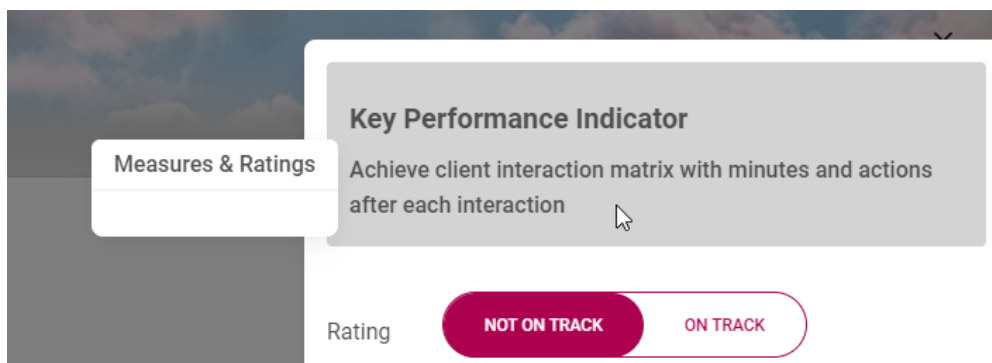

Score on the Print Preview (#108638)

Changed the score to display correctly on the print preview of the performance agreement
