

# Version 9.1.50 (10 November 2023)

## System Access

### Corrected Ruleset Creation check and improved helper text

- Changed the helper text to explain the System Endpoint field

System Endpoint

The URL to the Additional Services e.g. [https://companydomain/SignifyHR\\_MyCompany](https://companydomain/SignifyHR_MyCompany). This domain must be a subdomain of this ruleset's domain.

## People Management

### Implement API Calls

- API Calls to fetch
  - The list of People Group Users
  - People Groups linked to users
  - People Group roles
  - People Groups
