Version 9.1.54 (4 December 2023)

Imports

Validation (#102661)

Fix validation to allow duplicate position titles.

Translations

Move translations (#110409)

Moved Performance Management Action translations from static static to static translations to be able to translate on the front end.

Publishing a language that does not exist (#109858)

When publishing, if the language does not exist, auto-create it.

People Management

Character restrictions (#110273)

Remove username characters restrictions in identity to allow a username to have special characters.

Performance Management

Tooltip on Ratings (#110292)

Remove the score tooltip on the rating when the Hide Scores setting is enabled.

Rating Scales Label (#110286)

Fix rating scales label for Hide Scores to show Status.
