

# Version 9.1.65 (12 February 2024)

## System Access

Add a check on external login when User does not exist to give a message (#110250)

Added a message: Invalid Login Attempt

---

## People Management

Changed validation on the email address in the identity service when adding a user with an email address that has been used for another user on the ruleset as a username (#111385)

Removed the Username Required setting and changed the validation to only be performed when the username is empty and the email address is to be used as the username as a fallback.

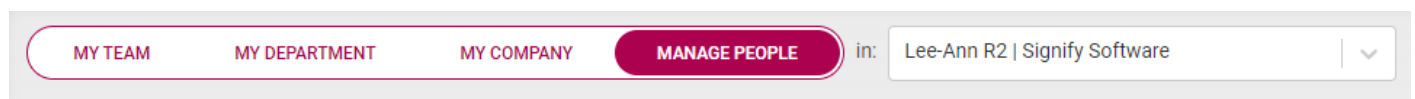

FIELD	REQUIRED	ADMINISTRATION		SELF SERVICE	
		VIEWABLE	EDITABLE	VIEWABLE	EDITABLE
Employee Number	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Home Language	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Initials	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Known As	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Middle Name	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Name	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Surname	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Title	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
User name	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

## Ensure that when a people group is exported the default is set when the user has not selected their default (#111809)

When the People Groups are imported into the Additional Services, the default is now also set on Additional Services.

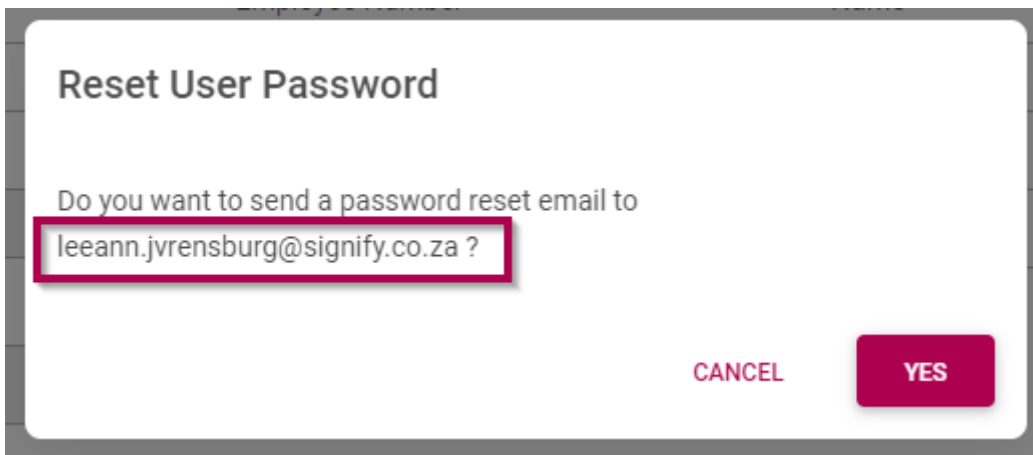

## Change the wording on the buttons of the People Management Dashboard (#110534)

The People Group button label has been changed to Manage People.

## Change the wording on the Password Reset Confirmation (#110536)

Added the person's email address to the confirmation message.

## Correct role implementation when displaying gear and product setup (#103560)

### Problem:

User roles are not considered when showing cog, product setup or people group menus

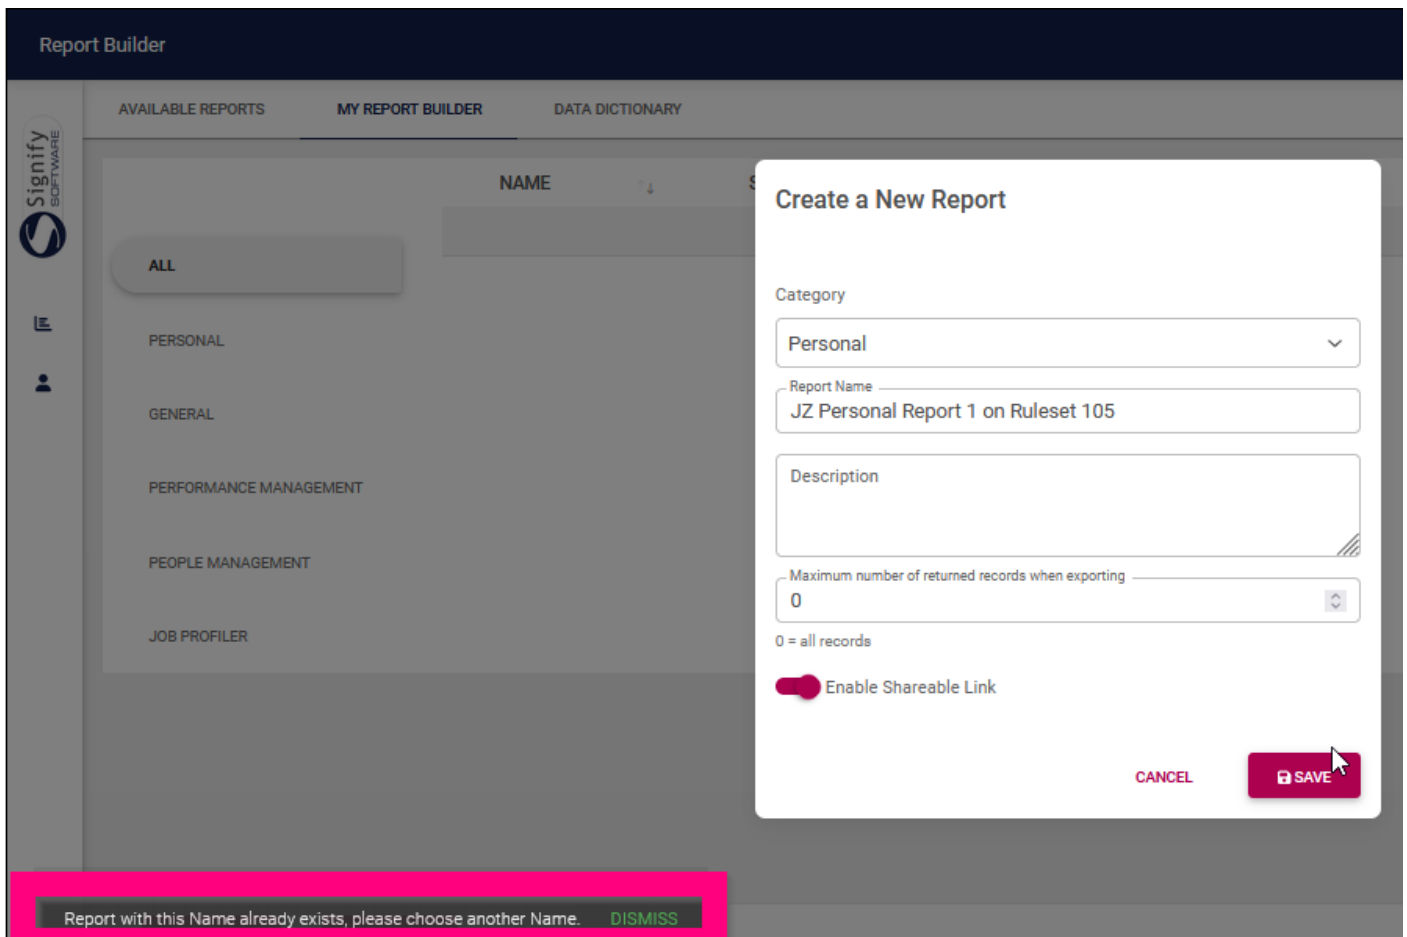

### Solution:

- Verify that the user is an authenticated admin before showing the cog
  - Only show people groups to people admins, performance admins to ruleset admins
  - Only show product setup to product admins or ruleset admins
  - On the product tab only show the products the user has the role to configure or show all if a ruleset admin
  - Hide ruleset tabs when the user is not a ruleset admin
- 

## Report Builder

### Ensure that reports have unique names (#111694)

Add a check to ensure that reports have unique names.

## Ruleset Setup

### Add on-screen messages when services are not running (#88160)

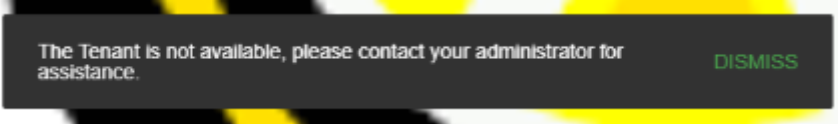

An on-screen message is displayed to inform the user when a service is not running.

## Tenant Management

### Expired subscription still showing as Active (#108507)

On the Tenant Management page, the expired subscriptions is made Inactive. Ensured that Ruleset 1 is exempt from the Tenant Inactive Check.

When logging into the Tenant, a message is displayed:

# Performance Management

Corrected the issue where the Modify Manager Ratings button are displayed twice (#111652)
