Version 9.1.69 (26 February 2024)

System Access

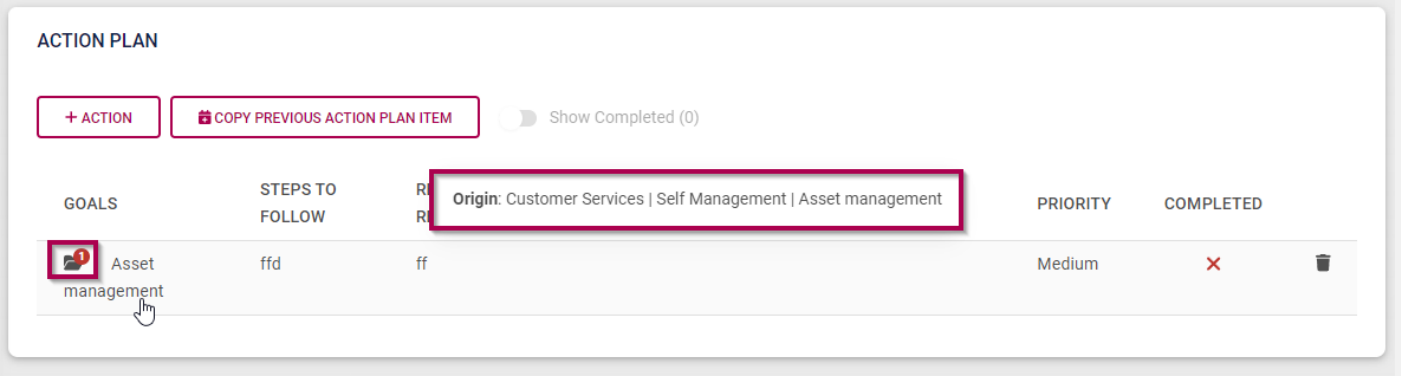

Fix issue where the Reset Password URL redirected to the incorrect theme (#108985)

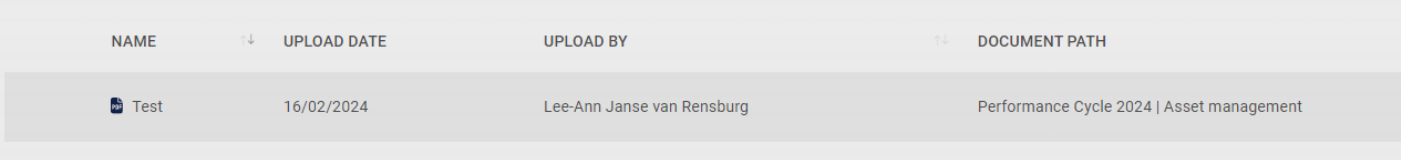

The URL now redirects the user to the correct theme when clicking on it.

Performance Management

Fix issue where KPI level Action Plan documents were not showing (#112290)

When adding an Action Plan for a KPI and adding documents on the Action Plan, the documents are now displayed.

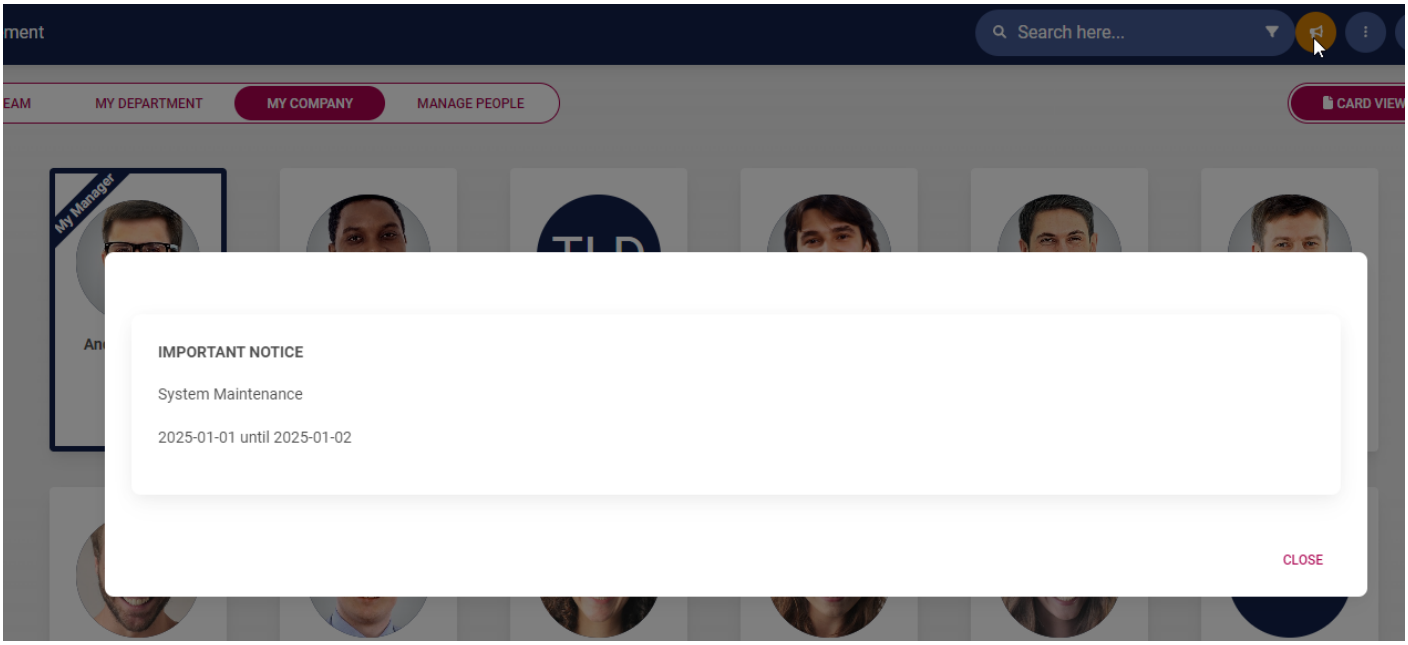

Ruleset Setup

Display bulletin in its own modal (#112446)

Instead of the message displayed under the bulletin icon, it now has its modal.
