Version 9.1.70 (26 February 2024)

Notifications

Add example data to recipients for notification testing (#93775)

When sending a test email, example data is added:

Job Profiler

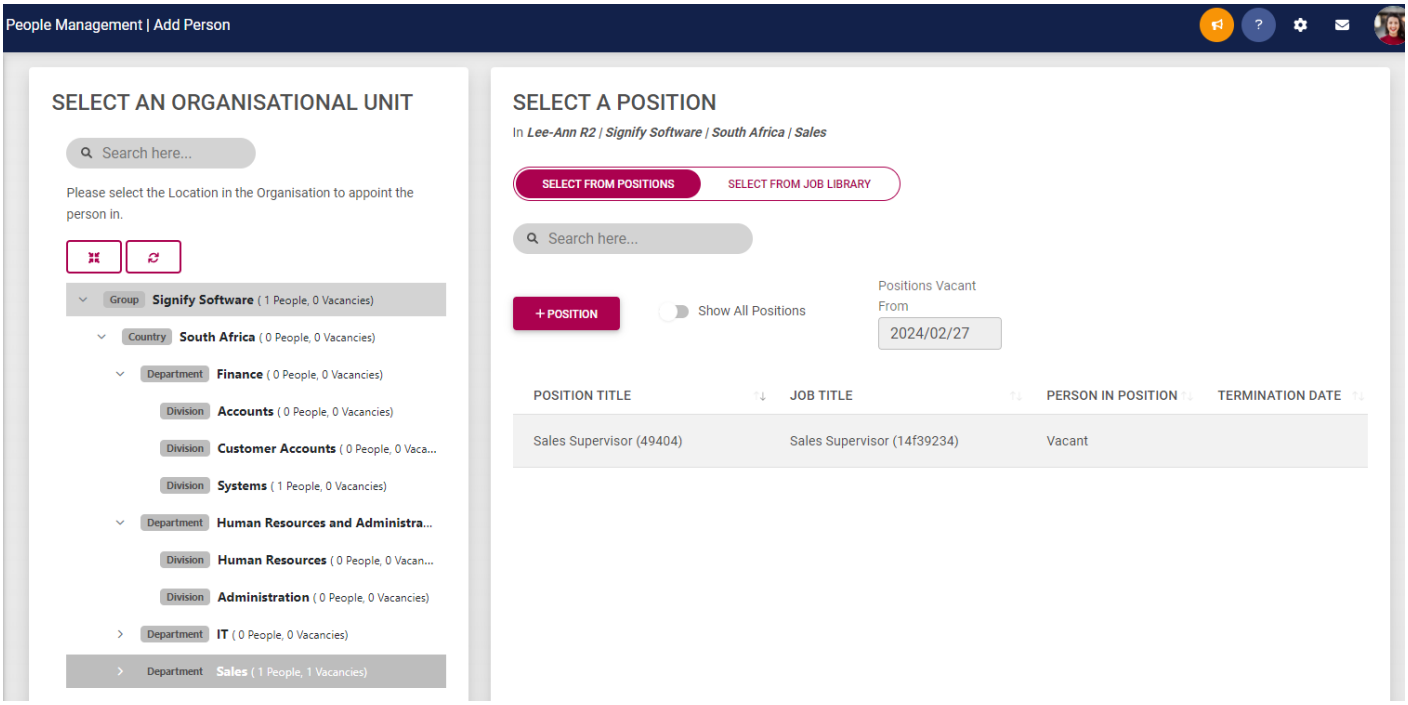

Check if job profile is published when calculating vacant positions on the different org structure views (#112369)

Only show Vacant Positions when the Job has been published. For example when appointing a new person.

One Job is Published and the other are not.

CODE	TITLE	POSITIONS	VANCANCIES	PUBLISHED
14f39234	Sales Supervisor	2	1	✓
15d3b3ca	Tester	2	1	✗

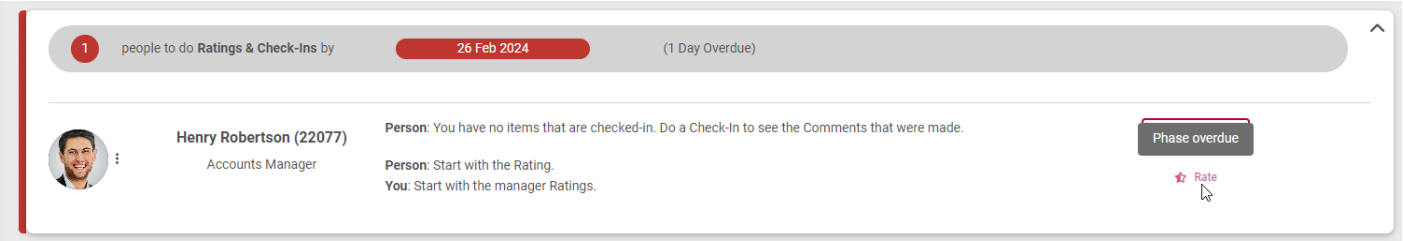

When appointing a new person, only the published Job's vacancies is shown.

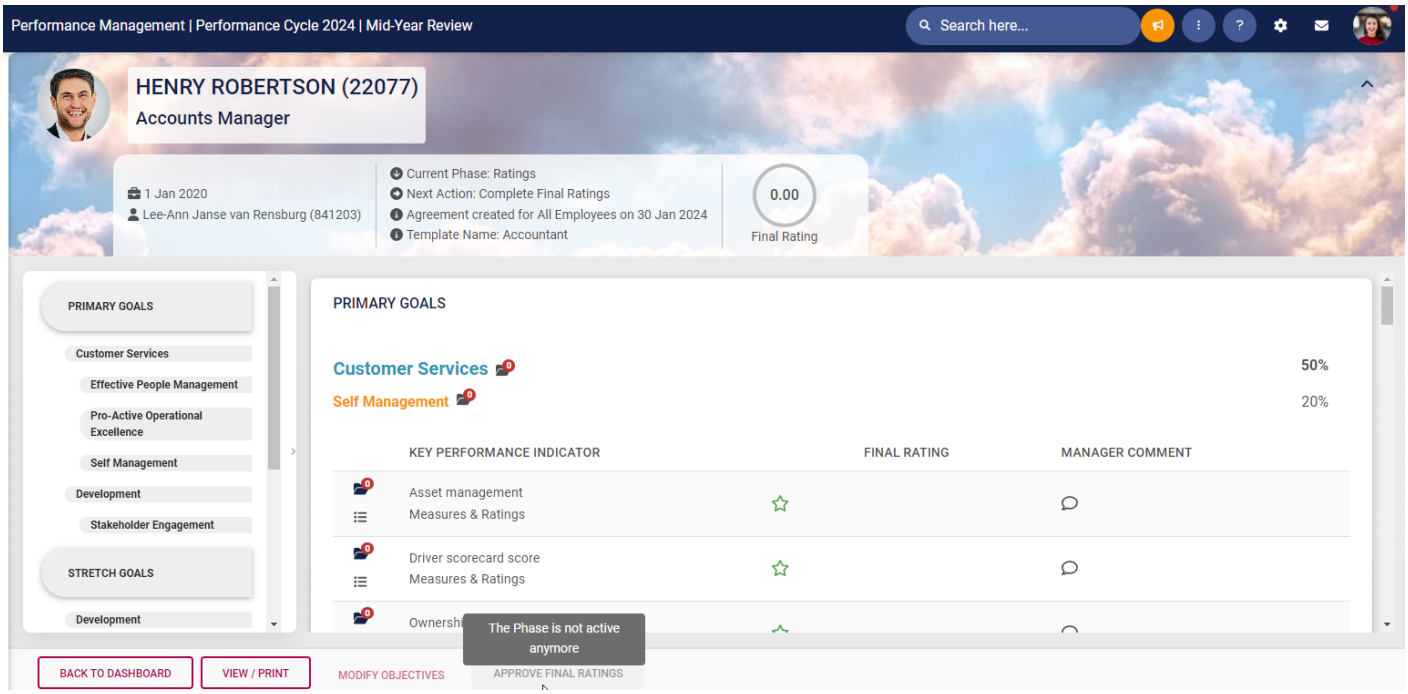

Performance Management

Users can rate and approve when phase is locked (#108065)

When a phase is locked, a person should not be allowed to complete the ratings.

Revision #5
