

Version 9.1.70 (26 February 2024)

Notifications

Add example data to recipients for notification testing (#93775)

When sending a test email, example data is added:

The screenshot shows a web application interface for editing a check-in deadline for a person. A modal titled "Send Test Notification" is open, allowing users to enter an email address and select placeholder data for a test email. The background interface includes a rich text editor with a template email, an "ATTACH FILE" section, and buttons for "SEND TEST EMAIL", "SMS", and "SYSTEM MESSAGE".

Edit Check-In Deadline For Person

Send Test Notification

Enter the Email address where the test notification should be sent.
