Version 9.1.72 (29 February 2024)

Ruleset Setup

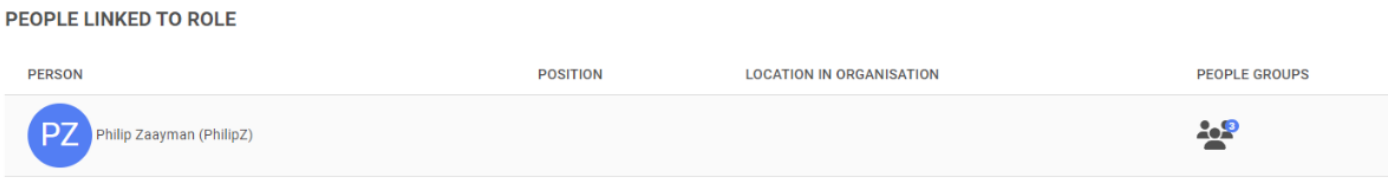

Ensure available languages can be published (#112374)

When a language is set to available, this should be published without errors.

Job Profiler

Terminated employees to not be displayed when viewing users linked to a people group role (#108023)

When a person is terminated, the people group roles are removed and no longer showing when viewing the people.

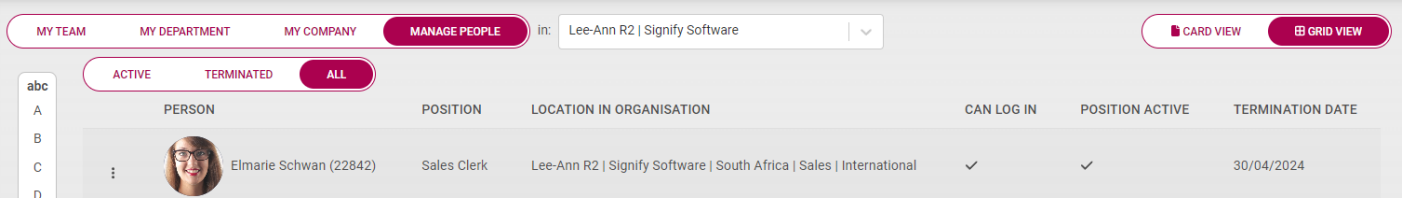

People Management

Make sure appointment dates are cast as date when retrieving employees for the people management index

page (#112757)

All future terminations are showing on the People Management dashboard.

Performance Management

Show Manager and Employee comments regardless of contract approval state (#112736)

New business rules have been applied to ensure all comments are shown:

For the Employee:

- Regardless of the settings, always show the Manager's comments in both the Objective Setting and Rating phase
  - Thus, if the manager added a comment to a KPI, show this to the employee although the objectives or ratings have not yet been submitted
    - Remember, always hide the Private Comment

For the Manager:

- Regardless of the settings, always show the Employee's comments in both the Objective Setting and Rating phase
  - Thus, if the employee added a comment to a KPI, show this to the manager although the objectives or ratings have not yet been submitted
