

# Version 9.1.90 (3 June 2024)

## Job Profiler

### Publish Job Profiles after employee data import (#115740)

#### **Problem**

- In some instances when importing users, the new job profiles were not published.

#### **Solution**

- Ensure that when importing, new job profiles are automatically published.
- 

## Help Files

### Implement pages that have not yet been added (#115698)

#### **Problem**

- Some pages did not have the Help Files yet

#### **Solution**

- Implement Help Files on all pages
- 

## Performance Management

# Copy Manager Ratings to the Final Ratings column (#111929)

New functionality was added to copy the Manager Rating to the Final Ratings column.

Select the *Copy my ratings to the Final Rating* button

The screenshot shows the performance management dashboard for Andre van Rooyen. At the top, there are three rating circles: Person Self-Rating (3.61), Manager Rating (2.80), and Final Rating (0.00). Below these, a table lists primary goals with columns for Key Performance Indicator, Person Self-Rating, Manager Rating, Final Rating, Person Comment, and Manager Comment. The 'Final Rating' column contains a '☆ RATE' button for each row. At the bottom of the dashboard, a row of buttons includes 'COPY MY RATINGS TO THE FINAL RATING', which is highlighted with a red border.

KEY PERFORMANCE INDICATOR	PERSON SELF-RATING	MANAGER RATING	FINAL RATING	PERSON COMMENT	MANAGER COMMENT
Achieve client interaction matrix with minutes and actions after each interaction Activities Measures & Ratings	3	3	☆ RATE		
Achieve customer operational contact matrix Activities Measures & Ratings	3	2	☆ RATE		
Achieve Divisional manager trade visit compliance with a weekly trade visit report sent to CE wit...	4	3	☆ RATE		

When confirming the message, the Final Rating column will be populated with the same score as the Manager Rating column. The ratings can be changed if required.

This screenshot shows the same dashboard as the previous one, but the 'Final Rating' column is now populated with the same scores as the 'Manager Rating' column. The 'Final Rating' column contains a '☆ CHANGE' button for each row. The 'Final Rating' value is 3 for the first goal, 2 for the second, and 3 for the third.

KEY PERFORMANCE INDICATOR	PERSON SELF-RATING	MANAGER RATING	FINAL RATING	PERSON COMMENT	MANAGER COMMENT
Achieve client interaction matrix with minutes and actions after each interaction Activities Measures & Ratings	3	3	3 ☆ CHANGE		
Achieve customer operational contact matrix Activities Measures & Ratings	3	2	2 ☆ CHANGE		
Achieve Divisional manager trade visit compliance with a weekly trade visit report sent to CE wit...	4	3	3		

# Bulk Actions delete search not working (#100782)

**Problem**

- The Search button on Bulk Delete Agreements stops working if you go to Create and then back to the delete page.

## Solution

- Search control was getting recreated and the click event was lost.
- Changed slightly to apply different classes to the button depending on the Delete / Create page and then bind the search event to both relevant classes.

# Show more characters on the comments pop-up (#115651)

## Problem

- Sometimes popovers did not display for comments (manager and user, but specifically manager in this case.).
- This happened because the text shown in the table with ellipses used the `textBoxMaxDisplay`, which is 80 characters.
- But the popover which was then used, used the `textAreaMaxDisplay`, which is 200 characters.
- This meant that for any comment between 80 and 200 characters, the popover will not display and the text in the table is capped at 80 characters, so the user cannot see what the full comment is - if between that character range.

## Solution

- Make sure that the popover also uses the `textBoxMaxDisplay`, when deciding whether to display.
