Version 9.1.93 (17 June 2024)

Performance Management

Check-in comment does not immediately display on the table after adding/updating (#116059)

Problem

- When adding/updating a check-in comment the comment does not reflect immediately on the contract and needs to be refreshed.

Solution

- Update contract check in item state after Comment saved to make it refresh the contract item.

Ruleset Management | Payroll Integrations

Changed logic regarding the display load more button (#115193)

Problem

- The Load More link is always displayed

Solution

- Changed the logic to show when more than 10 records are available

---

People Management

The "Link to Payroll Connector" field is displayed when there are no connectors (#115674)

Problem

- The Link to Payroll Connector field should not be available when there are no Payroll Connectors configured

Solution

- Hide the field when there are no Payroll Connectors

HR Processes

Various fixes include:

- Cannot disable the Line Manager Reporting Line
- Make sure all Reporting Lines are shown on a person's profile
- Standardise validation messages
- Styling fixes
- Duplicate Reporting Lines fixed
- Correct the dropdown field that closes the modal
- Fix the sync call for the reporting line sync
