A record is kept of every letter sent from the **Recruitment & Selection** module. These records can be accessed as follows.

- Every letter that is sent from the module is sent via the Signify Software Email Runner component.
- The email runner sometimes takes a couple of minutes to send a letter out. Once done it will update the applicant's record.
- In the **Letters Sent** field a count is kept of letters sent.
- To view the letters that have been sent to an applicant, in the **Letters Sent** field, click **VIEW** to display the detail.
- On this page, if you need to see the full email that was sent out, click **View Email** to display the page.
